

Chutes and Ladders of AAC Implementation

Nerissa Hall Ph.D. CCC-SLP, ATP

Hillary Jellison M.S.CCC-SLP, ATP

Communicāre, LLC

What we do...

We love what we do! We specialize in AAC, AT, Speech and Language, and Special Education. We offer a range of services in-person and remotely via telepractice (tele-AAC), such as:

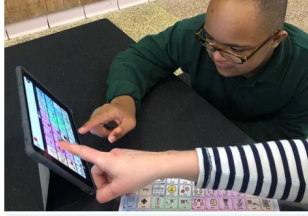

[INTAKE FORM](#)—>

[CAREGIVER FORM](#)—>

Assessments

AAC and AT assessments with a heavy emphasis on implementation.

Intervention

Individually-tailored intervention services on-site and online.

Consultation

Customized consultation to support widespread implementation.

AAC Camp

Intensive and immersive AAC camp in-person and online.

Webinars and PD

Webinars on a range of topics with CEU opportunities.

Tele-AAC

AAC assessment, intervention and consultation services online.

Resources

A growing library of handouts, tutorials, videos and activities.

Spotlight Series

Real-life tips, ideas and information learned from our community.

#AACdog

A project designed to explore dogs' responsiveness to AAC devices.

Learning Outcomes:

- Explain three or more critical components of AAC Implementation
- Describe how AAC can be implemented with preferred activities
- List other forms of AAC in multiple environments

Communication

What is the goal of AAC?

Augmentative and Alternative Communication is to support an individual's verbal communication or could be their main mode of communication. The goal is to support an individuals' most efficient means of communication.

*Access to an AAC system does not equal communication, just means they have access.

AAC Implementation Fundamentals

How to teach communication aided or augmented by AAC
systems.

Modeling/Aided Language Stimulation

AAC modeling is the communication partner's act of using AAC too.

- Without expectation
- Can be only one to two words
- Input output symmetry
- Doesn't have to match verbal perfectly.
- Respectful of AAC as a means of communication.

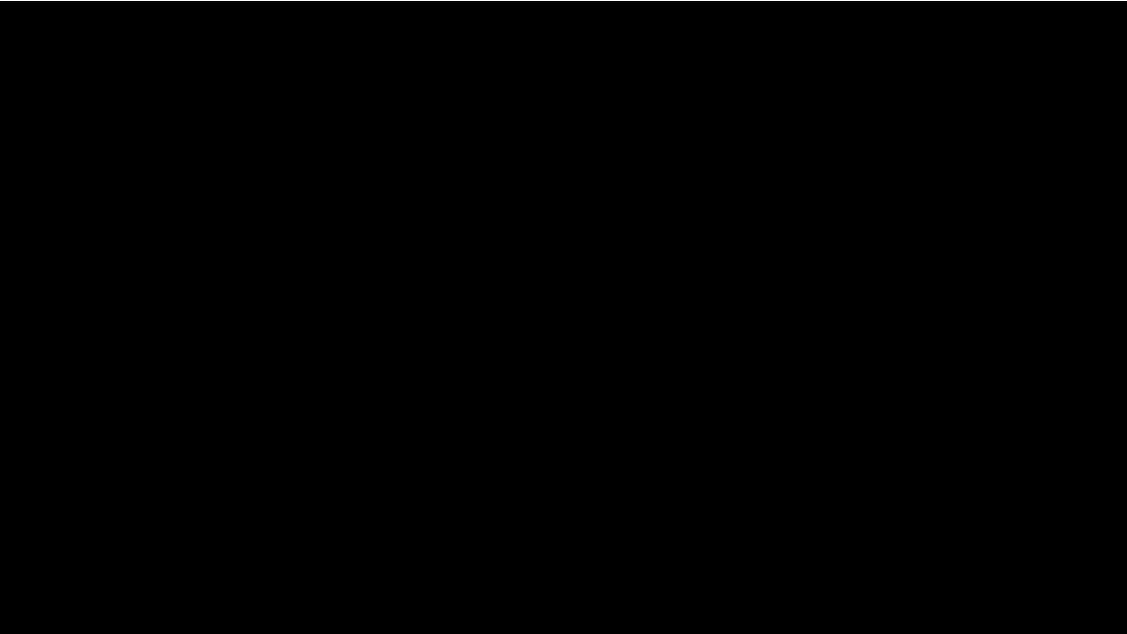

Prompting

Prompting is a teaching technique to help support development of a skill.

- Hierarchy of prompts depending on skill level with varying levels of intensity.
- New skills may need higher level of prompting.
- Familiar skills need less prompting.
- Best prompt: wait time!!

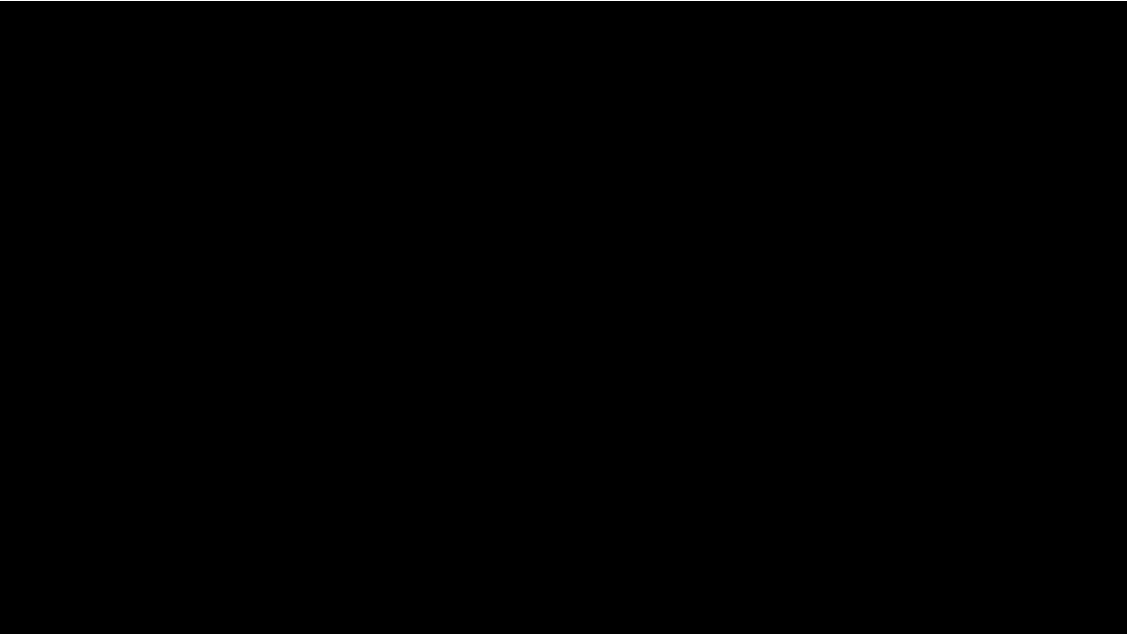

Creating opportunities

How we set up the environment and/or interact with an item of interest to encourage an individual to use AAC.

- 
- Ask open ended questions
 - Sabotage
 - Don't anticipate individual's needs
 - Use wait time
 - Making it engaging

Language Expansion

Our response to make an utterance longer and/or more complex.

- 
- Knowing the individual's language level and modeling above.
 - Recasting- saying back what the individual said and adding to it.

The Chutes

Clinician's Perspective

- Communication partners modeling
- Communication partners ask yes/no questions
- Environment doesn't support communication opportunities
- AAC System is NOT present

Parent's Perspective

Sarah's Perspective

- Carving out time to learn the vocabulary
- Training communication partners (family, instructors, clinicians, etc.)
- And keeping up with the individual's abilities.

Danielle's Perspective

- Having device present
- Using core vocabulary throughout day
- Learn vocabulary and navigation
- Identifying communication opportunities
- Can be overwhelming at first- just got to do it

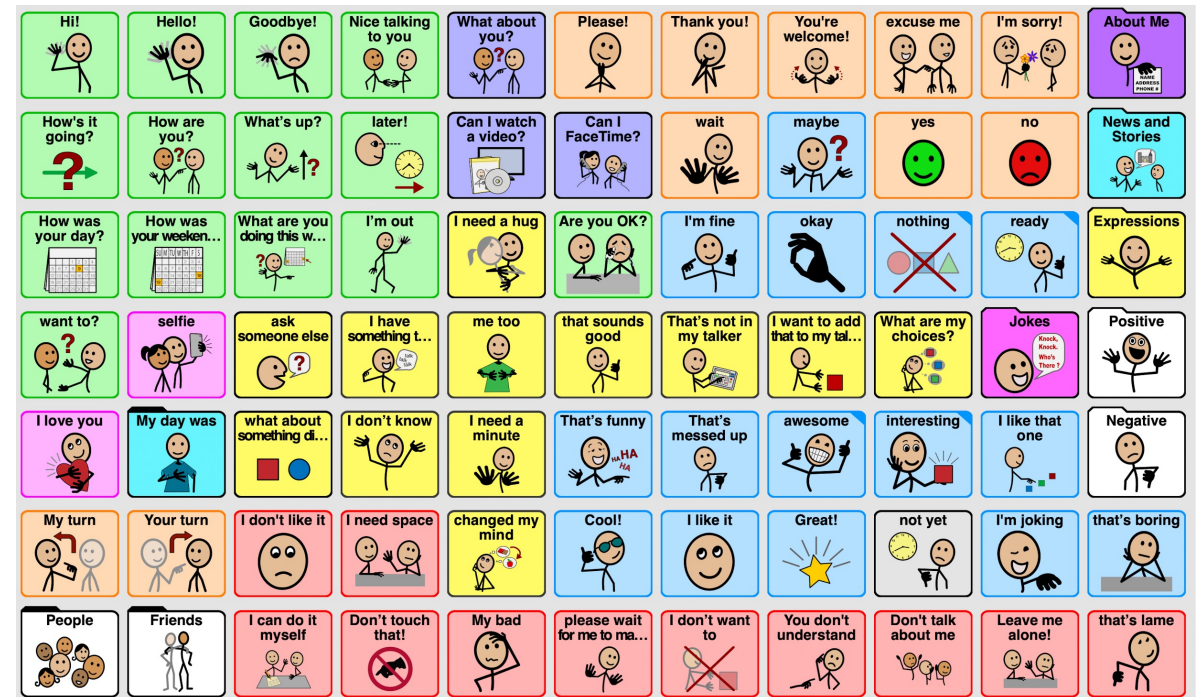

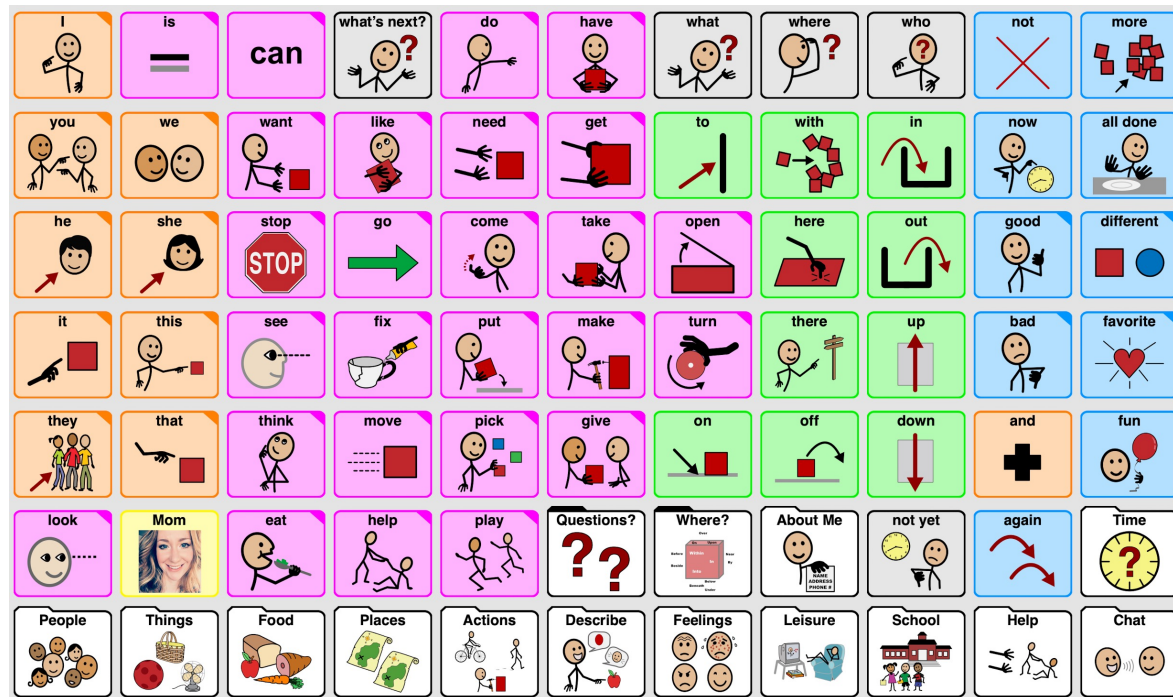

The Ladders

Engagement and Motivation

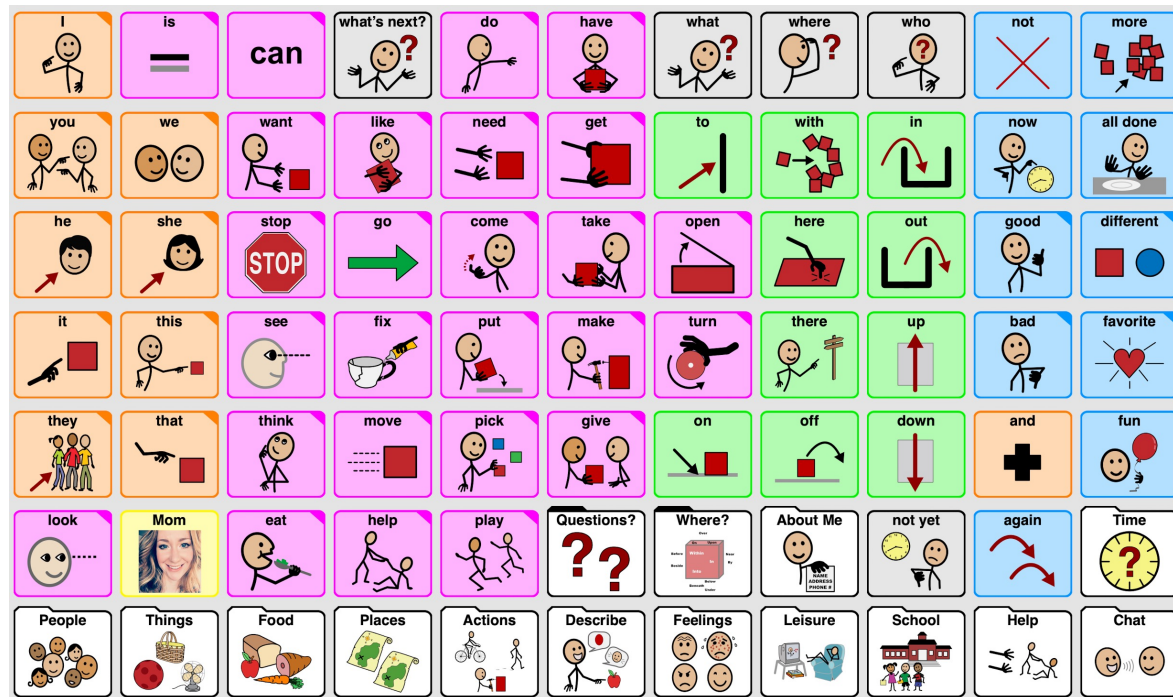

How to learn the vocabulary?

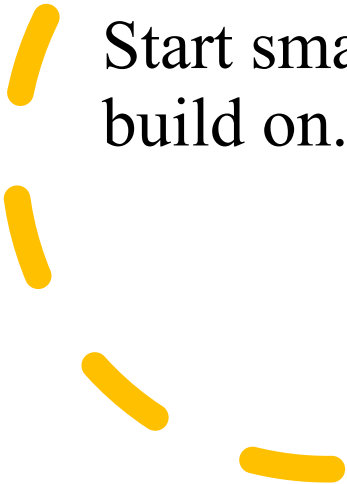

Where to start?

Main Page and Chat

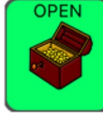

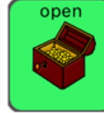

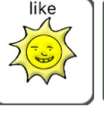

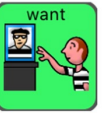

It might seem overwhelming at first, but you just have to jump in, and practice and do it. Ask your clinician and team for guidance of where and how to start.

A yellow curved line graphic consisting of four segments, located to the left of the text.

Start small and feel the successes to build on.

How do you do Core?

Core Words	Navigation	Opportunities	Word Combination ideas (to model- not expect)
open	  	<ul style="list-style-type: none"> Containers Cooking Something locked 	<ul style="list-style-type: none"> Help open Open it Open more
Don't like	   	<ul style="list-style-type: none"> Food/snack Brother annoyance Book/game Smell/taste of something 	<ul style="list-style-type: none"> Don't like
stop	 	<ul style="list-style-type: none"> Brother annoyance Removing a reinforcer Stop work/task 	<ul style="list-style-type: none"> You stop Connor/Patrick stop Stop it Please stop
Don't want	   	<ul style="list-style-type: none"> Food/snack Game/activity Offered something Task avoidance 	<ul style="list-style-type: none"> Don't want
Make	 	<ul style="list-style-type: none"> Cooking Arts/craft dishes 	<ul style="list-style-type: none"> Make it Make more Make sandwich Make big Make little Make clean
Look	 	<ul style="list-style-type: none"> Timer is going off Laundry is done Draw attention to look at something in book/photo/video 	

Parent
involvement
is key!

Advice for Clinicians

More parent involvement, as
part of the process not just
sharing how the process went.

Meet the Parents Where They Are

Get to know what they are able to do.

Meet them where they are

Ask them what would be helpful for them.

Explaining Purpose of Communication

Communication partners like to know the lingo and what it is we are focusing on. Be explicit- it helps.

A stylized sun graphic on the left side of the slide. It features a solid yellow circle representing the sun's disk, with several short, thick yellow dashes of varying lengths radiating from its top-left edge, suggesting sunbeams. The background is split: the top-left corner is orange, and the rest is white.

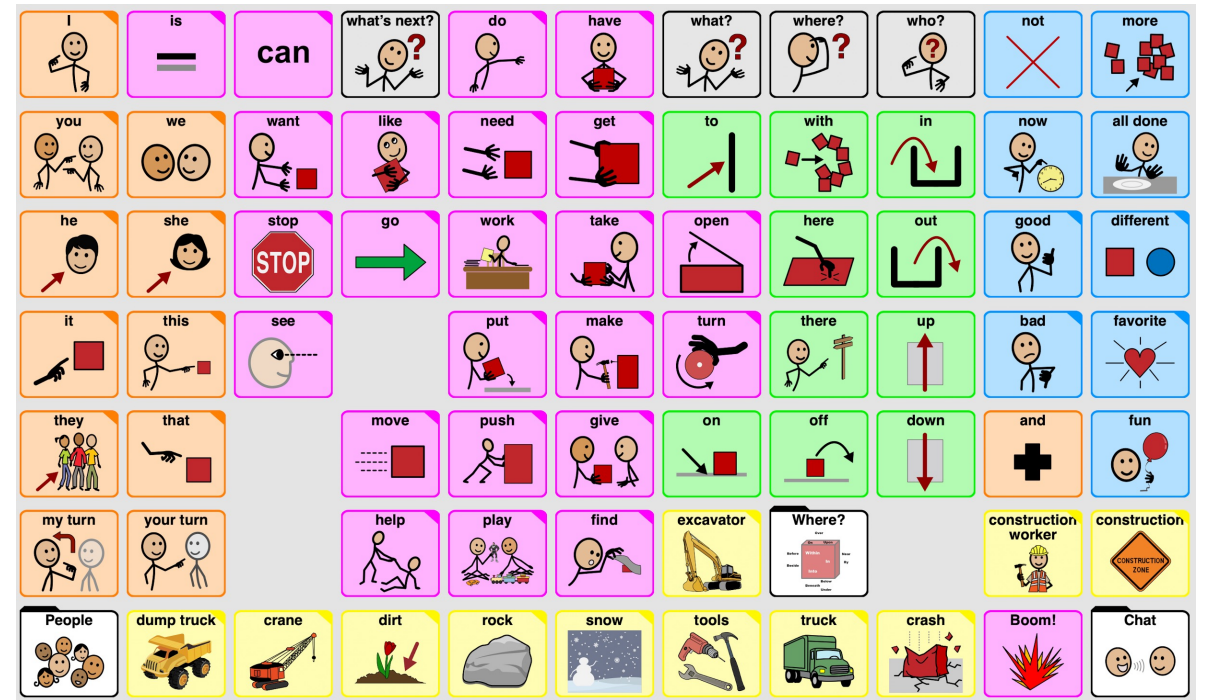

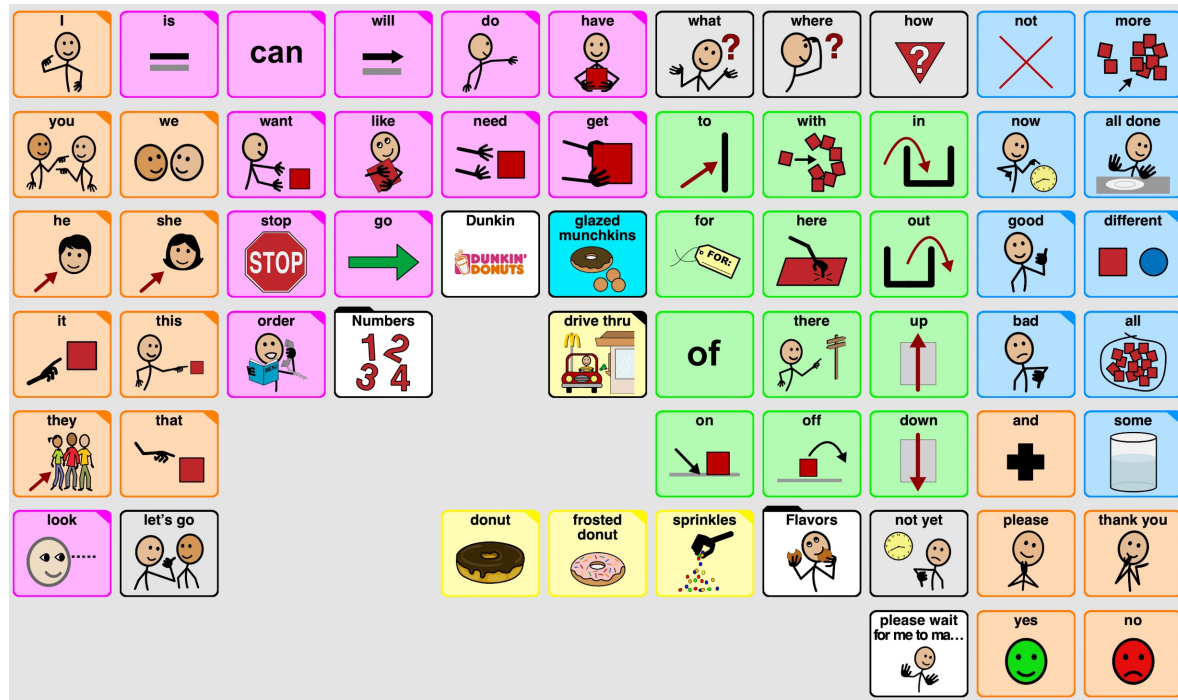

Struggling to create communication opportunities

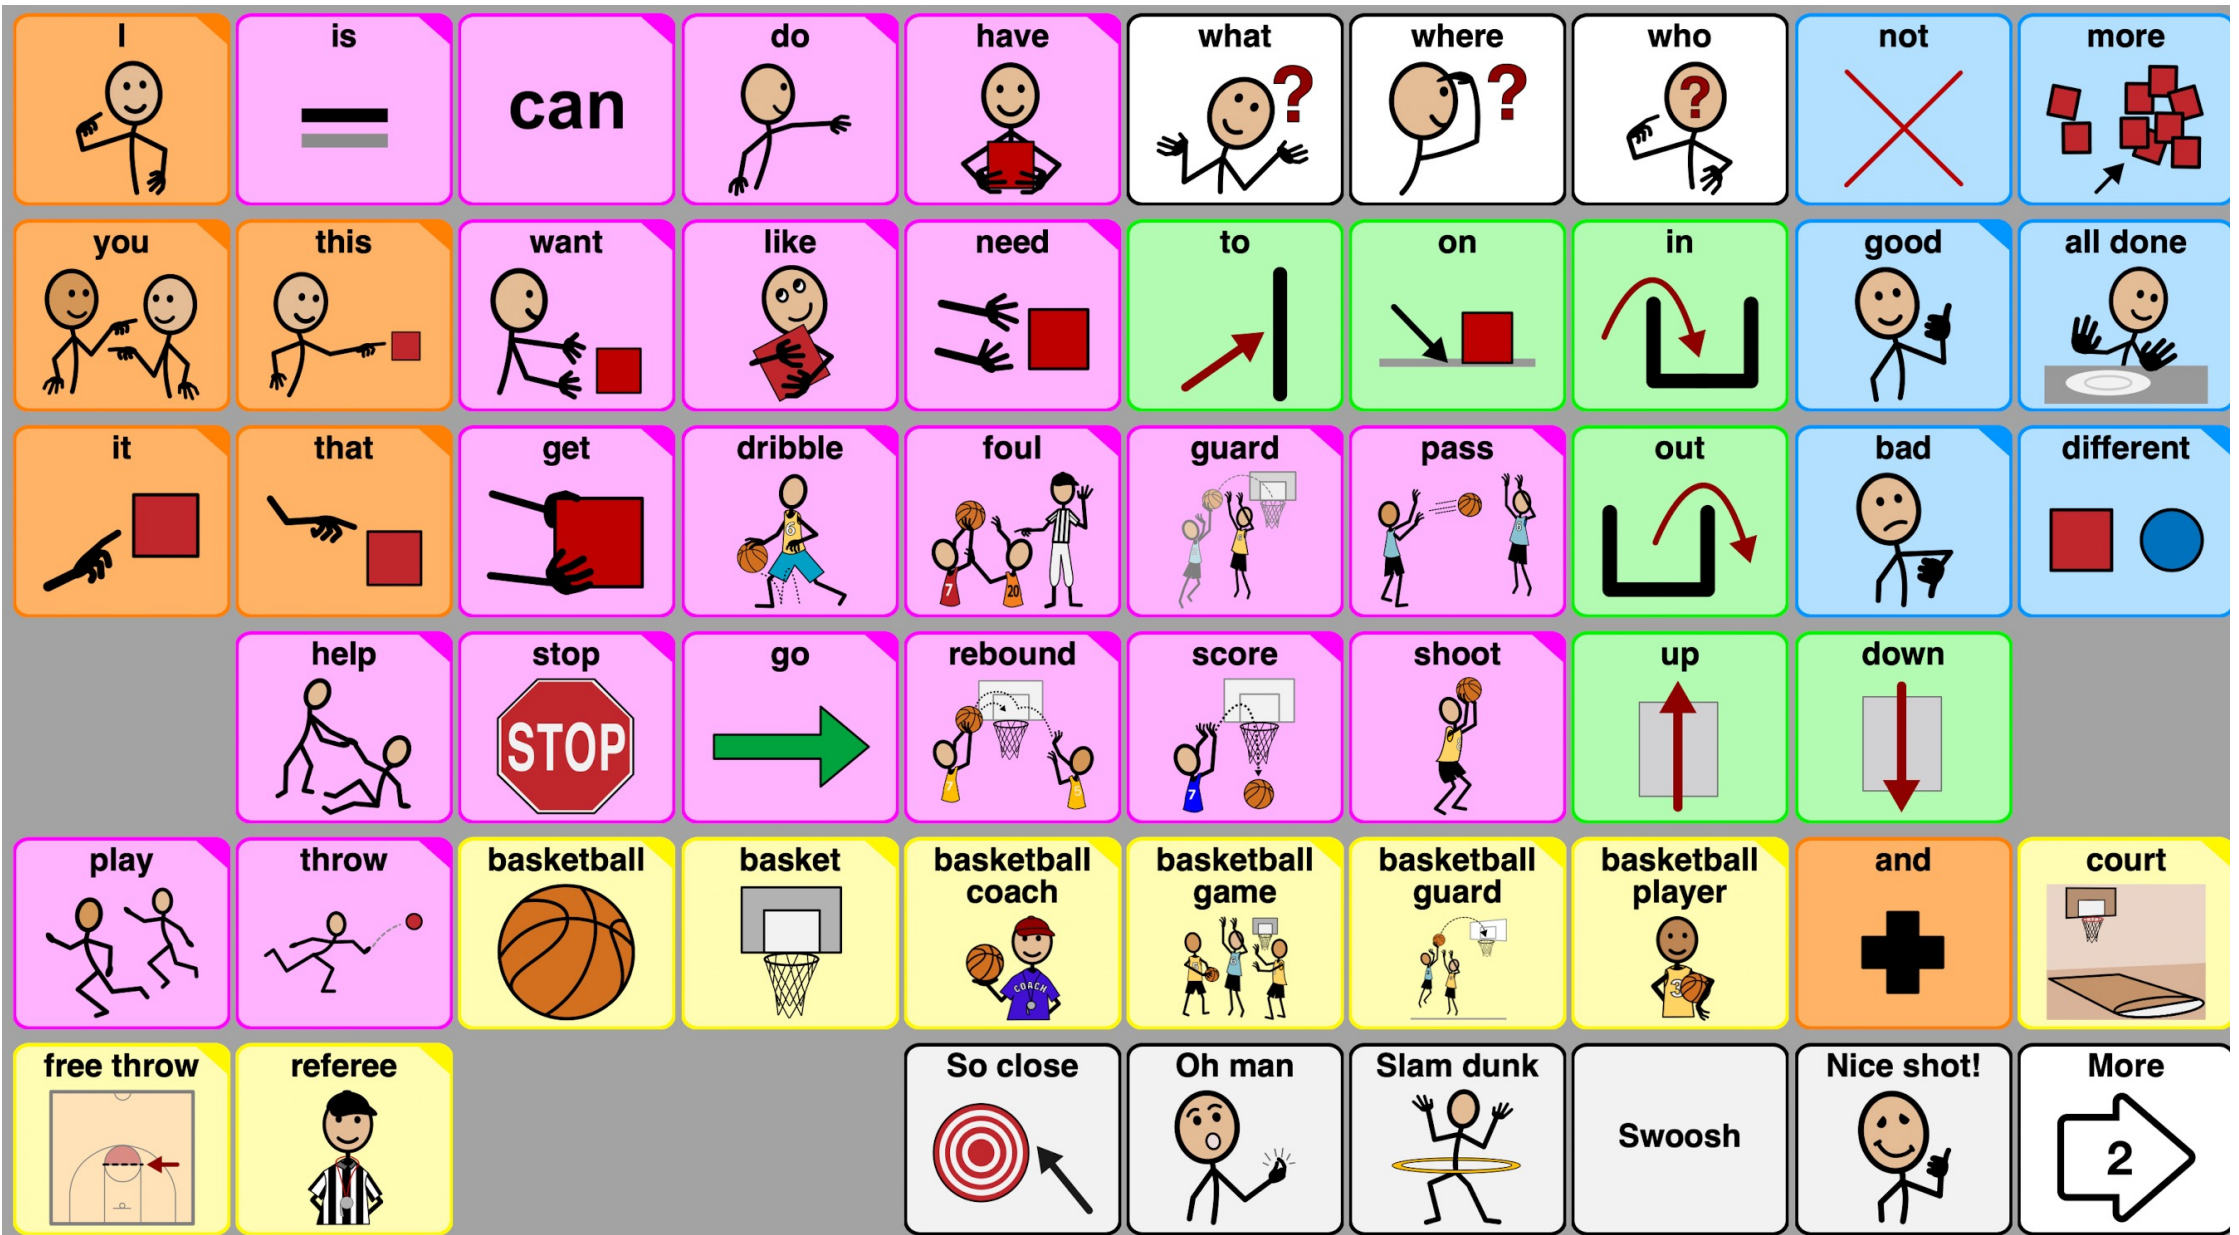

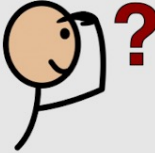

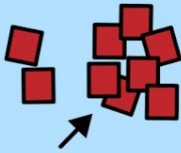

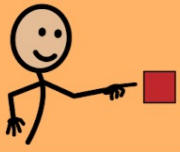

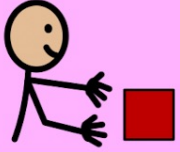

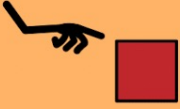

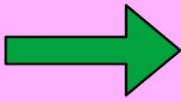

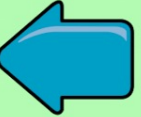

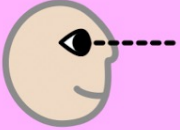

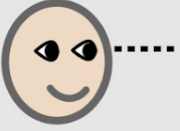

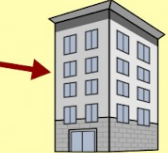

Use individual's interest and motivation

Science Experiments, Sensory, STEM,
Switches, Planting, Basketball

Topic Pages- Ease of Access

I 	is 	can	do 	have 	what 	where 	who 	not 	more 
you 	this 	want 	like 	need 	listen to music 	on 	in 	good 	all done 
it 	that 	get 	put 	take 	ride 	here 	out 	bad 	different 
Granby	South Hadley	stop 	go 	left 	right 	there 	fast 	slow 	wrong way 
Belchertown	Ludlow	see 	come 	drive 	road 	bridge 	river 	and 	home 
Amherst	Holyoke	Look at that! 	Are we there yet? 	Change the song. 	Turn it up! 	building 	car 	Restaurants 	Stores 

The One and Only Ivan

		The One and Onl...	Katherine Appleg...	Ivan	Stella	Bob	Ruby	George	Mack		
				gorilla 	elephant 	dog 	baby 	janitor 	owner 	crayon 	art 
I 									favorite 	money 	glass box 
you 				like 		buy 	paint 	color 	more 		
it 	he 		friend 			sell 			mall 		Africa
she 					good 		live 				
CLEAR 	not 			make 		bad 	watch 				

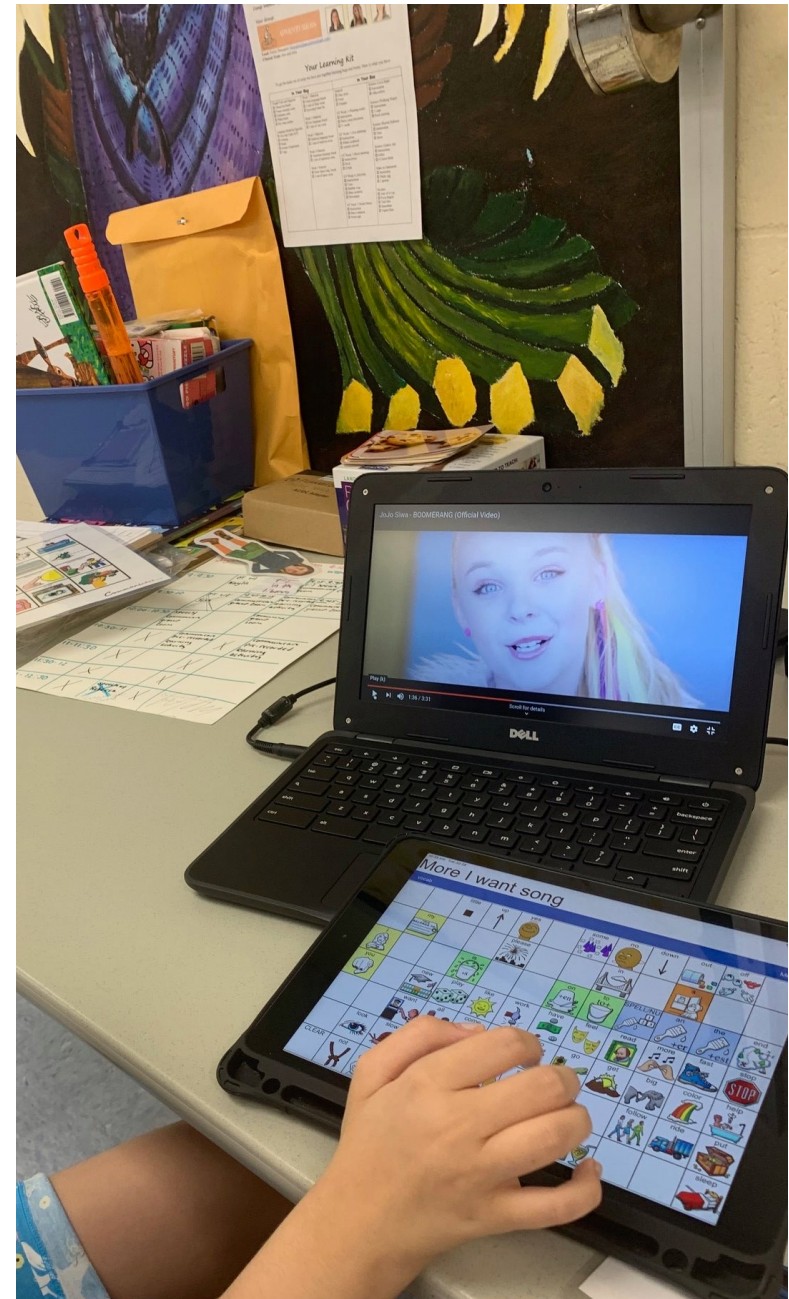

Embed AAC/Communication expectations into activities that are motivating and already occurring.

Use the natural environment.

Language Purpose

Remember to include multiple functions of communication (think beyond requesting).

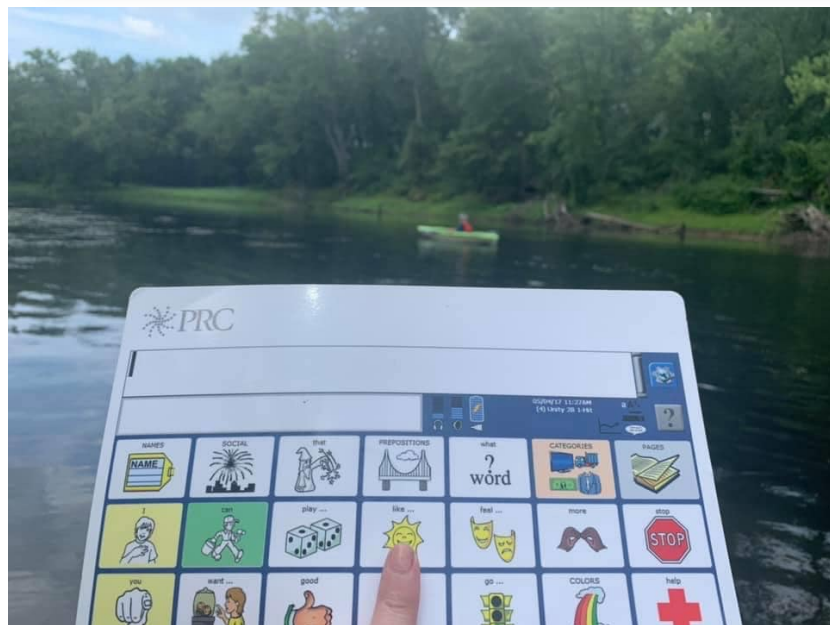

- Commenting *I like that.*
- Protesting *That's boring!*
- Directing another's behavior *Turn it up.*
- Asking Questions *What's next*
- Sharing Information *That's JoJo Sewa*

Lite-tech Supplements

- Language Board
- Comment Cards
- Environmental Labels

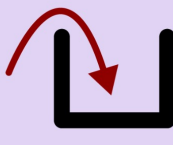

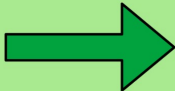

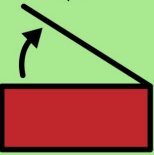

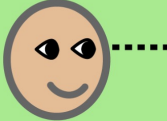

Support ease of
access to AAC
within activities

Environmental Labels

Commūnicāre, LLC

Environmental Labels - Around a door or window, entrance, or exit			
come 	in 		
go 	out 		
open 	it 		
look 	outside 		

Commūnicāre, LLC

In Environment

What does successful
arrangement of the
environment look like?

Follow
individual's
interest

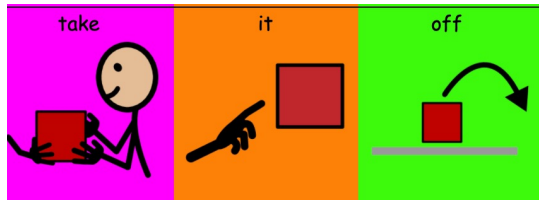

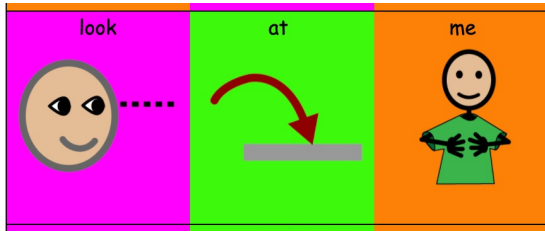

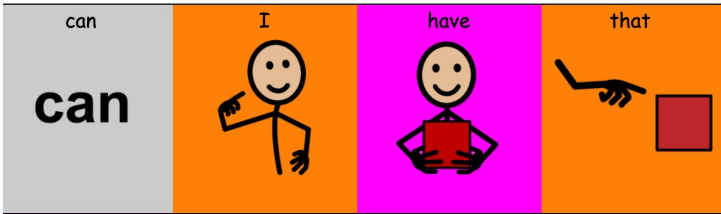

Communicare LLC

Look at how the individual is already communicating in that environment/activity. Can we expand on that or use AAC to have access to more specific language?

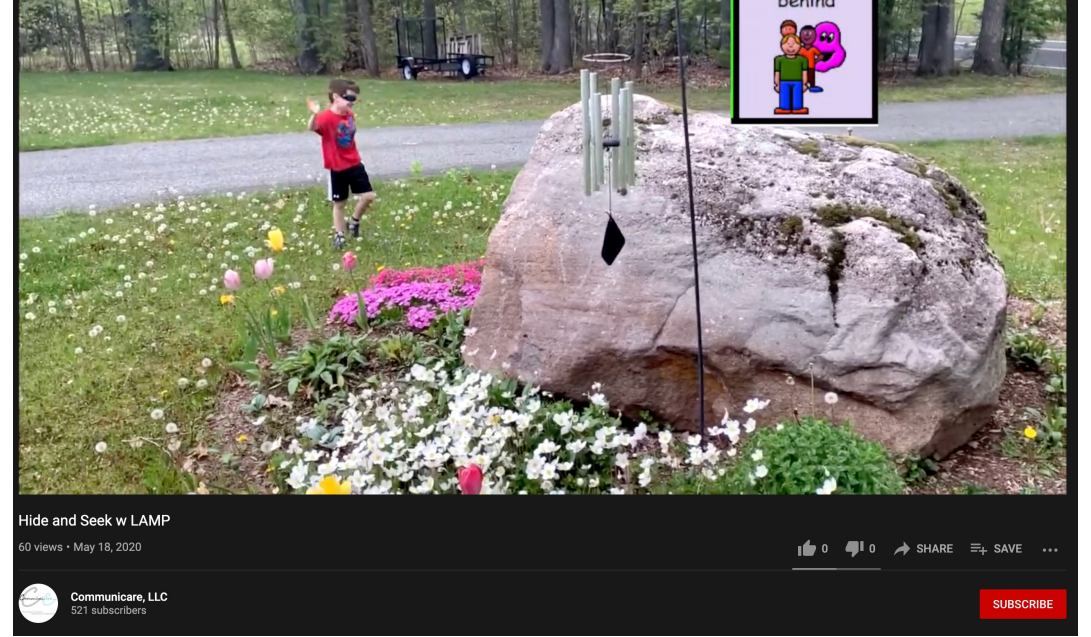

Think of alternative prompts other than verbal prompting for expansion.

- Visual prompts
- Expectant pause
- Clinical sabotage

Make it fun
and
engaging!

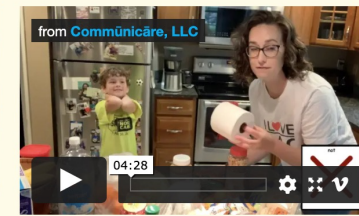

More Examples of AAC and FUN!

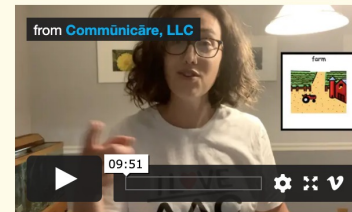

Symbol Set: LAMP and Unity

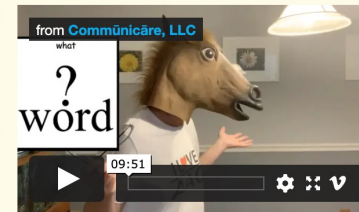

Symbol Set: Symbolstix

Learning Activity:

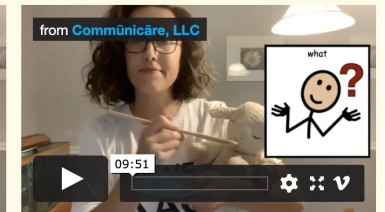

Play charades with Hillary! Try to make guess as to which vocabulary word she is acting out. Find the vocabulary words within your AAC System or use this weeks language board or vocabulary icons to show your answer. Play your own game, too!

Symbol Set: LAMP

Symbol Set: Unity

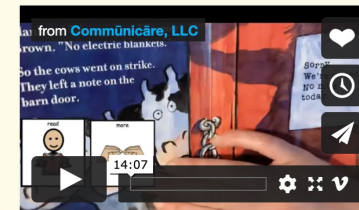

Symbol Set: Symbolstix

Learning Activity:

Join Hillary reading Click, Clack, Moo. This is a fun book and is definitely worth the watch!

Symbol Set: LAMP and Unity

Remember Partner Fundamentals

Prompting

Modeling

Communication
Opportunities

Language
Expansion

Wait...

- Wait time can be hard to do but worth working on = goal is independence and initiation of communication.
- Watching videos can be good feedback for yourself.

AAC BOOT CAMP

Getting AAC Users COMMUNICATING

regardless of AAC system used (no tech, low tech, high tech) or skill level...

DON'T do this.....

 **DON'T** expect a user to know how to communicate w/o direct models & instruction

 **DON'T** do ALL the talking

 **DON'T** overprompt

 **DON'T** teach ONLY requesting

 **DON'T** re-prompt too quickly

 **DON'T** provide ONLY nouns

 **DON'T** focus on vocabulary that won't be functional/used tomorrow

 **DON'T** remove the device

 **DON'T** move symbols

 **DON'T** stop all "babbling" (exploring, button pressing)

 **DON'T** keep the AAC system in their desk, cubbie, or backpack

 **DON'T** expect sentences right away

DO this.....

✓ **MODEL MODEL MODEL**
model expected communication behaviors BEFORE expecting to see those behaviors from the user

✓ **PRESUME COMPETENCE**

✓ **FOLLOW** prompt hierarchy

✓ **TEACH** language functions including directing, commenting, requesting assistance, etc...

✓ **WAIT** 10-20 sec. (w/an expectant look) before re-prompting!!
Count in your head!! 1 2 3

✓ **PROVIDE CORE WORDS** including verbs & describing words (in addition to nouns)

✓ **COLOR CODE** parts of speech

✓ **KEEP** icon placement constant
keep repeated icons in the same location on each page/screen

✓ **ALLOW** user time to explore and learn the system

✓ **MAKE** AAC available at all times

✓ **PROVIDE** Aided Language Input

✓ **ASK** open-ended questions

Ask more open-ended questions, provide aided language stimulation and other must dos!

After Action Review

- Review what worked
- Review what didn't work as well
- Review next steps

AAC Coach- Celebrate the Wins

- Have the device present
- Modeled more than yesterday
- Individual was looking while modeling

Early AAC Successes Worth Celebrating!

(EVEN BEFORE YOUR LEARNER BEGINS TO USE IT!)

- We had the talker with us all day today!
- I modeled a little more than yesterday.
- They were looking when I modeled!
- I modeled a new communication function (e.g., asked a question, commented).
- Modeling helped them understand what I was saying.
- I modeled during a new routine.
- I learned some new words to model.
